PROSPECTUS OF THE "NATIONAL MON-UMENT,"

A weekly journal to be published in Washington under the sanction of the Washington National Monument Society. JAMES C. PICKETT, EDITOR AND PUBLISHER.

Monument Society.

JAMES C. PICKETT, EDITOR AND PUBLISHER.

The Monument is intended to be a literary, agricultural, and miscellaneous paper. It will contain selections of the literature of the day—the best that can be found in American and Kaglish publications: interesting scientific articles, embracing mechanics; foreign and domestic news; a synopsis of the proceedings of Congress, and every thing that such a journal might be expected to contain, with the exception of party politics, which will be at all times most rigorously excluded.

The Monument will be published for the express and the sole purpose of aiding in the erection of the noble column new rising on the banks of the Potomac, in nonor of the Father of his Country, and which every one who venerates the name of Wasinkrovy would rejole to see completed. After deducting out of the subscription the expenses of the journal proposed to be published, the remaining funds will be faithfully applied, and without reserve, to the purpose indicated. The aid, therefore, of all who are willing to contribute to so patriotic an object, and one so entirely national, is earnestly requested. By subscribing to the Monument, a valuable journal at a low price may be obtained, while it will be doing something, at the same time, towards completing that majestic memorial of the Nation's gratitude.

The Board of Managers recommend Mr. Pickett, formerly Fourth Auditor of the Treasury and Charge d'Affairs to Pero, who proposes to edit, and publish the Monument journal, as one well qualified to perform the duties of editor, and to conduct the paper saithfully, and satisfactorily to the subscribers. They assure their fellow-citizens that this enterprise is not a speculation got up for individual emolument. Mr. Pickett will make the experiment with his own means and at his own risk; if successful, he will receive nothing more, and he asks nothing more, than a very moderate compensation for his services. Not one dollar, therefore, of the direct subscription to the erection of the

list of fifty thousand paying subscribers, at two dollars each, will yield an annual net profit of from fifty to sirty thousand dollars.

The postmasters, and secretaries of all organized bodies throughout the Union, are respectfully requested to act as agents in obtaining subscriptions, thus adding the great object of our exertions.

As all editors and publishers, on account of the object for which the Monument newspaper will be established, must wish it to succeed, it is hoped that they will contribute to its success by publishing this prospectus.

All moneys will be remitted, and all letters and moneys addressed prepaid, to the general agent of the Monument Society, Hon. Elisha Whittlessy, Washington.

Greens — Millard Fillmore, exalicite President; Arch. Hon. Fore Vice President; Watter Lenox, (Mayor of Washington,) Second Vice President; Watter Canox, (Mayor of Washington,) Second Vice President; Thos. Carberry, Third Vice President; J. B. H. Smith, Treusurer; Geo. Watterston, Secretary.

Brand or Manages.—Winsigh Scott, N. Towson, Thos. Marroe, W. A. Branday, P. R. Fendall, Walter Jones, Thomas Blagden, Ester Force, W. W. Seaton, M. F. Maury, Hartley Crawford, Send Ogle Tayloe, Elisha Whittlessy, Terms.—The Monteurs will be printed on a double-royal sheat—the paper and type being of the best quality—and in quarto form, containing sixteen large pages, that it may be more easily preserved. The price will be two dollars per annum, payable on the receipt of the second number. The nature of the enterprise not admitting of any credit, none can be given.

Societies and clubs will be furnished with the Monument

dit, none can be given. less and clubs will be farnished with the MONUMENT following terms: 3 copies for \$5; 5 copies, \$5; 10 15; &c.

on the following terms: 3 copies for \$5; 5 copies, \$8; 10 copies, \$15; &c.

Those who are disposed to patronise the Monument are requested to forward their names to the General Agent, without delay. The first number will be published early in May, and the second on the second day of August and weekly thereafter, time being allowed for the Prospectus to be circulated, and for the agents to make returns. As all subscribers will be contributors to the Monument itself, their names will be published in the paper.

Through in six minutes. For the preparation of lee Creams, Water Jees, &c.—Patented September 19, 1848.

THE distinguising meri is of this Apparatus are—

1st. The astonishing rapidity of the process, surpassing belief—hence the name.

2d. The Cream during the progress of freezing becomes charged with atmospheric air, by which it nearly doubles in bulk, and obtains if at peculiar smoothness, lightness, and delicacy of flavor, for which the Ice Cream of our best Confectioners is no highly prized.

3d. It does not be puire a tenth part of the labor that the common Freezer does.

4th. It does its work better, producing a better article, in every respect, if an by any other mode.

5th. There is a considerable saving in ice, as the tub needs no replensy thing during the operation.

The annexed testimontal from the Proprietor of the Entaw House will put to rest all doubt.

"Having will nessed the process of freezing Ice Cream in Austin's Mi agic Presser, two quarts of Cream having been frozen is a the incredible short time of six minutes, it cheerfully resonanced it to the public.

English tranches, Natural Philosophy, Chemistry, Physicology, History, Rhetoric, the various branches of Mathematics, and the Latter, Greek, and French Languages. Particular attention is past to the higher Mathematics and their application to Machanics and Engineering. The latter and Surveying are taught practically by field operations, with the use of appropriate instruments. Lectures on Natural Philosophy and Chemistry, in which all the important principles are illustrated by experiments, are regularly delivered before the students.

As the object is to make the instruction as thorough and practical as possible, no expense has been spared in providing suitable apparatus. It is believed that, in this respect, the Institution will compare favorably with any similar one in the country. A carefully selected library, of more than one thousand volumes, containing works on the various branches of Literature and Science, furnishes ample reading matter; while a Laboratory, fully supplied with apparatus and tests, contains all that is necessary for practical instruction in Chemical Manipulation.

The school year commenced on the third Second day (Monday) of the Ninth month, (September,) and is divided into four quarters of sleven weeks each, leaving a vacation of two months, from about the middle of the Seventh month (July).

Medicine, "THE GREAT VA. REMEDY," in the disease you are already in possession, as to the efficacy of your modifiene, "THE GREAT VA. REMEDLY," in the diseases which it is desirated to cure, are sufficient, in my opinion, to establish its reputation, and secure for it such patronage as will adequately reward you for the discovery of so inestimable a Medicine—yet the great benefit which I have derived from its use, and the saturary effects which I have witnessed from its use, and the saturary effects which I have witnessed from its use, and the saturary effects which I have witnessed from its employment in the cases of several friends, to whom I had recommended it, constrain me to contribute, for such use as you may think proper to make of it, this formul acknowledgment of its sanitary virtues. My own case was Dyspepsia of long duration, and very agravated in its character, manifested by an almost total destruction of the digestive functions, great debility, nervoumess, emacation, and impaired appetite, with pain, and a burning sensation in the left side of the classic palpitation of the heart, vertigo and congestion in the head, and many other symptoms indicative of the worst type of the disease, by the use of three or four hottles of your preparation, been entirely relieved. The cases of my friends, in which your highlenis was taken, were Dyspepsia, Chaenie Readache, and Sore Throat, in all of which it proved efficacious, after the trial of a vast number of other remedes without benefit. Your medicine is as pleasant to the teste as a cordial, and in my experience corrects all de-

dies eithout benefit. Your medicine is as pleasant to the taste as a cordial, and in my experience corrects all dringement of the stomach, restores the wasted or enfeeble energies of the digestive organs, and imparts strength an reanimation to the whole system.

VALUABLE LAW BOOKS. WE invite the attention of the Profession, and other desiring Law Books, to our very extensive stock which, we believe, contains the best assortment of American Publications in the United States. Particular attention given to furnishing or completing Libraries for the Departments, Associations, and States.

Orders by mail promptly and carefully executed.

English Common Law Reports,

58 Folumes, with a complete Index to the first 47 Volumes.

Since volume 39 of this series, The English Common Law
Reports have been reprinted in full. With volume 44, we
commenced binding each English volume separately, instead of, as formerly, two English in one American volume.

Price—For the first 43 vols., \$3 50 per vol.

For the succeeding. 2 50 "

The reputation which these Reports maintain in England and in the United States is known to all the Profesdon. The law price at which they are offered, compared
with the rates of some of the principal American Reports,
of even inferior merit, recommends them particularly to
the sitemation of those purchasing labraries. English Common Law Reports,

A General Index to the first 47 Vols. of the English Common Law Reports.

By Hon. George Sherswood and George W. Biddle, Esqrs. 1 vol. 8vo. - 26 90.

With this Key to their contents, the English Common Law Reports present to the Profession a mass of legal learning in the shape of Opinions, Date, claborate Arguments, &c., &c., sumicient, probably, for the Elucidation and Prosecution or Defence of any case that can arise in our Courts of Law; and being thus made easily and instantly accessible, these Reports will be found so comprehensive; convenient, and chesp, as to supersede the necessity of other or more expensive scales.

The Index will be found of great value to all possessing the Reports; and of great convenience to those having access to, but not owning the series.

Mesers. T. & J. W. Johnsoni

Gentlemen.—In reply to your letter, I can with great sincerity, say, that I entertain a very high opinion of the recent Exchequer Reports. In my judgment they are not excelled by any cotemporaneous Reports, in learning ability, or general utility and interest. The cases decider are discussed with great care, and expounded with uncommon force. I scarcely know of any volumes which I deen of more importance or value for a Professional Library.

JOSEPH STORY.

Campridge, January 25, 1845.

Gentlemen: Your letter of the 24th has been received.
In which you ask my opinion as to the value of the English Exchequer Reports, from Price downwards to the time, to an American Lawyer, and as to the expediency of reprinting them in this country. Of the high value of these Reports, both on the Pleas and Equity edges of the Court, I have not the least doubt—the decisions of this Court for the last fifteen or twenty years, both at Equity and in Common Law, being endued to equal respect with any others in England. I should think an American Lawyer's Library essentially incomplate without them.

I am, gentlemen, very respectfully yours,
SIMON GREENLEAF.

FURNISHING MAIL LOCKS AND KEYS.

PORNISHING MAIL LOCKS AND KEYS.

Post OFFICE DEPARTMENT,

March 14, 1851.

T being desirable to substitute locks and keys of some other kind for those now in use for the mail service the United States, specimen locks and keys, with prosals to furnish the same, will be received and considered the Post Office Department until the first day of July ext. The different locks will be submitted to a commission for examination and report. Upon this report, com

possis to furnish the same, will be received and considered at the Post Office Department until the first day of July next. The different locks will be submitted to a commission for examination and report. Upon this report, contracts will, as soon as practicable, be entered into for furnishing such locks and keys for four years, with the right on the part of the Postmaster General, for the time being, to extend and continue the contract in force for an additional term of four years, by giving to the contractors written notice to that effect, not more than nine nor less than six months before the termination of the first term of four years.

With a view of procuring the best lock at the lowest price, no kind of lock is prescribed as a standard, the Department relying for a selection on the mechanical skill and ingenuity which a fair competition, now invited, may develop. It is, however, proper to state that a lock suitable for the mail service should possess the following qualities, vir. durability, uniformity, lightness, and strength. For the purpose of displacing simultaneously all the mail locks and keys now in use, about thirty thousand new locks and twenty thousand keys adapted thereto will be required to be furnished by the contractor within seven months after the contract ball have been entered into: afterwards the annual supply will depend on the durability of the locks and keys adopted, as well as the increase of the mail service; but it will probably never exceed in amount three thousand of the fatter.

No lock will be considered if it be like any already in general use; nor will any one with whom the contract usay be made be allowed to make, sell, or furnish, any lock or key similar to those contracted for for any other purpose or use than that of the Post Office Department.

The kind of lock adopted must be patented, and the patentee will be required, on entering into contract, to make an assignment of his patient for the exclusive me and benefit of the Department. The party or parties are feneral ma

It is, in fact, a merchants' magazine in the large acceptation of the term—merchants who go between mitions, whose large operations bring many departments of knowledge, and a view of the state of the world, into daily requisition. But it is not the great merchant only, but the one of more modest, but, nevertheless, of most useful operations—the merchant of the interior also—who will find this magazine to abound with the information the pursuit of his bust-ness and the elevation of the mercantile character re-quires. COLD SPRING WATER CURE.

THIS NEW AND SPLENDID ESTABLISHMENT for the scientific treatment of the various diseases with which the human system is afflicted, is situated alout three miles from the city of Buffale, in a ritiral spot, and so accessible from all points as to be reached without inconvenience or delay.

A line of omnibuses runs from the steamboat landings in Buffale to the springs every ten minutes.

The house and grounds are near the extensive and beautiful green-houses and unseries of the Mesers. Hodges & Bryants; and the scenery in all directions is unsurpassed, as regards either variety or heauty, embracing points of view, from which may be taken in at a glance the broad expanse of Lake Eric, the Niagara flowing majestically towards the Falls, extensive forests, and the "Queen City of the Lakes," with its moving panorama of steamboats and ceaseless enterprise.

The water, taken immediately from the celebrated "Cold Spring," is manupassed as regards coldness and purity, by any in the United States. The house, recently erected at a cost of about seven thousand dollars, has been fitted up in a neat and elegant style, at considerable extra expense, and is sufficiently capacious to accommodate seventy-five patients.

Connected with the establishment, and constituting one of its attractions, are the fixtures and conveniences for innocent and healthful gymnastic exercises.

MEDICAL DEPARTMENT.

The institution is under the general supervision of S. M. Davis, M. D., Professor of the Theory and Practice of Medicine in Central Medical College, and Geo. W. Davis, M. D., formerly of Dapaville, N. Y., the relicion physician, and is permanently associated with the before mentioned gentleman as counsel, and associate of the medical bound of control. And the friends of the establishment decrn it a matter of felicitation that the services of Miss Mary M. Taylor, a lady of high medical attainments, who has attended two courses of lectures in the Central Medical College, have been secured, and that female patients can as any time avail themselves of her invaluable aid and counsel.

The steward's department is under the control of a gen-tleman eminently qualified for that position; and unwea-ried pains will be taken to have every thing apperhaping to the establishment arranged on a plan, and conducted in a way, to ensure the comfort, and promote the health and happiness of all who may wish to avail themselves of its benefits. An enlightened public sentiment has everywhere reputdated a reckless use of drugs in the treatment of disease; while intolerable sufferings and broken constitutions have imperatively demanded "Reform." A return from a wide and fatal departure from the simplicity of Nature's laws is called for, alike by a rational love of happiness and the deplorable exigencies of our condition. Hydropathy, or a scientific use of water as a restorative and curative agent, is a practical substitution of a simple said remaining the mattery over disease, too frequently places the patient by yond the reach of further annoyance. The success of the various Water Cure establishments in this cuntry, to say nothing of any other, has fully confirmed the bone of the early discoverers and promulgators of the great ruths upon which the system is founded and renders verbal communications unnecessary. It is deemed sufficient to say, that the "Oold Spring Water Cure "will conjuste favorably with any of the well-conducted establishments of a similar character, and will be found equal to the best, as regards the order, convenience, and desirableness of the arrangements.
